TECHNICAL SKILLS

PROGRAMMING LANGUAGES
- Dart, JavaScript, TypeScript, PHP
- Python, C++, C#

MOBILE DEVELOPMENT
- Flutter, Dart
- Responsive UI Design
- State Management (BLoC – Basic)

WEB DEVELOPMENT
- HTML, CSS, JavaScript, React
- Tailwind CSS, Django, PHP

BACKEND & DATABASE
- REST API Integration
- Database Design, SQL
- Backend Development

SOFTWARE ENGINEERING
- Software Testing & Debugging
- Application Security (Basics)
- Software Architecture
- Git & GitHub
- Agile Team Collaboration

ICT & NETWORKING
- ICT Support
- Office Network Installation
- Network Troubleshooting
- Signal & Video Diagnostics
- System Installation & Configuration

PROFESSIONAL SKILLS
- Problem Solving
- Analytical Thinking
- Teamwork & Communication
- Leadership & Team Coordination
- Adaptability & Quick Learning

ADDITIONAL INFORMATION

- Strong interest in mobile and web application development.
- Quick learner and highly adaptable to new technologies.
- Strong leadership, teamwork, and communication skills.
- Passionate about building user-friendly software solutions.

LANGUAGES

- Amharic – Native
- English – Professional working proficiency

CAREER SUMMARY

Information Science graduate from Haramaya University with practical experience in software development, mobile application development, web development, and ICT support. Experienced in building Flutter mobile applications and developing web-based systems using modern programming technologies. Strong understanding of software engineering principles, software testing, application security, REST API integration, and database development. Recognized for strong problem-solving, leadership, teamwork, and communication skills. Passionate about developing reliable, user-friendly software solutions and continuously learning new technologies.

WORK EXPERIENCE

Software Engineering Intern

LT Software Engineering PLC – Addis Ababa, Ethiopia — June 2025 – September 2025

- Conducted research on application security, software testing methodologies, project management tools, and software design best practices.
- Researched payment gateway integration techniques for mobile and web applications.
- Contributed to the development of a Flutter-based logistics mobile application.
- Assisted in implementing new features, debugging issues, testing functionality, and improving application performance.
- Provided ICT support including office network installation, maintenance, and troubleshooting.

PROJECTS

TibebStore – Digital Marketplace for Custom and Handmade Products

Software Developer (Team Project) | February 2025 – May 2026

- Developed a web-based marketplace for buying and selling custom and handmade products.
- Built frontend and backend features using modern web technologies.
- Designed and integrated database functionality.
- Collaborated with team members throughout system design, development, testing, and deployment.
- Participated in debugging, optimization, and continuous system improvement.

Logistics Mobile Application

Flutter Developer (Internship Project) | June 2025 – September 2025

- Developed user interface components using Flutter and Dart.
- Assisted in implementing application logic and integrating backend services.
- Performed software testing, debugging, and bug fixing.
- Improved application performance and user experience through collaborative development.

LEADERSHIP EXPERIENCE

Main Leader

EVaSUE (Ethiopian Volunteers Association for Student Service and Education) — 2024 – 2026
Haramaya University

- Led and coordinated student volunteer programs and organizational activities.
- Managed communication between members, volunteers, and university stakeholders.
- Organized educational programs, meetings, and student events.
- Strengthened leadership, teamwork, communication, planning, and organizational skills.

EDUCATION

Bachelor of Science (B.Sc.) in Information Science

Haramaya University – Ethiopia — 2023 – 2026

Relevant Coursework: Data Structures, Database Systems, Web Development, Software Engineering, Information Systems, Networking, Algorithms.
